

Istvan Erlich (1953) received his Dipl.-Ing. degree in electrical engineering from the University of Dresden/Germany in 1976 and his PhD in 1983 from the same university. After his studies, he worked in Hungary, Berlin and Dresden (Germany) in different fields of power engineering. Since 1998, he is Professor and head of the

Institute of Electrical Power Systems of the University Duisburg-Essen/Germany. His major scientific interest is focused on power system stability and control, modelling and simulation of power system dynamics including intelligent system applications, smart grids and renewable energy sources. He is a member of VDE and senior member of IEEE. He chaired the IFAC Technical Committee 6.3 on Power and Energy Systems in 2008-2014. Currently he is chair of the IEEE PES German Chapter.
