<http://www.cs.sfu.ca/~stevenp/>

Dr. Steven Pearce has completed his B.Sc with Honours and M.Sc from University of British Columbia in 1981 and 1984 respectively. He earned the doctoral degree from University of Arizona in 1995. Currently, he is serving as a Faculty member in School of Computing Science, Simon Fraser University, Burnaby, British Columbia, Canada. His research interest include Spectral Methods in Mathematics, Computational Magnetohydrodynamics (Pseudospectral) applied to Astrophysical Dynamo Theory, Computational Fluid Dynamics applied to Cratering Mechanics and Oceanic Impact Megatsunamis, Mathematical Inverse Theory applied to High Energy Astrophysics, and Theoretical Technology. He has published various research papers in reputed journal and conferences.
